

# BIRD BURGLARS

Eat Food. Steal Egg.

## Goal:

You are an egg-collector just trying to collect as many eggs as you can but there are others who want to steal your little egg makers and even the eggs you have already collected.

You are in a local park using whatever food you can find around you to make the birds do what you need them to.

You must collect more eggs than your rivals to prove you are the best egg-collector the world has ever seen.

## Setup:

- Separate the starting birds (Bird marked with "Starter" in the top left) from the rest of the Scavenger cards. Shuffle the rest of the cards.
- Each player starts with a nest. Place 5 eggs in each player's nest.
- Each player will then select a starting bird.
- Each player will then draw 5 cards from the Scavenger Deck.

## Turn Order:

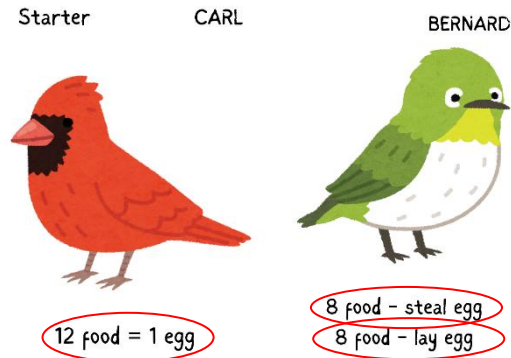

- Scavenge Step
- Deployment Step
- Final Round
- Repeat until all cards run out

## Scavenge Step:

- Each player will take one card from their hand (this is the five cards drawn during the setup)
- Place that card face down until all other players have chosen their card
- Reveal the face down cards and then pass the hand to the player to the left
- Repeat these steps until each player has placed down the last card in their hands

### Deployment Step:

- Whoever grabbed the least food will start this step
- Each turn, players will have a few options:
  - Use a “food ability” on a bird
  - Declare their final turn
- Players must choose only one of the turn options
- If a player cannot make a “food action” they must declare their final turn
- Turns will continue until one player declares their final turn

### Final Round:

- A player must not have played a “food ability” on the turn they declare they are taking their final turn
- Once a final turn is declared, all players get one more turn to use “food actions”
- If a player cannot make any actions, they will be skipped
- Once the final round is over and all players have taken their final turn (excluding the player who declared), all food and “Spoiled Food” cards get discarded to the Discard Pile
- If there are still cards in the Scavenger Deck, then begin a new Scavenge Step
- If there are no cards left in the Scavenger Deck, the game is over and the scores should be tallied

### Scoring:

- The player with the most eggs in their nest will win the game
- If there is a tie in eggs, then the tied player with the most birds will win the game
- If there is a tie in eggs and birds, then both players are forced to cohabitate the park for the rest of their Brd Burglaring lives

## Cards

### Bird Cards:

- After revealing a bird card in the Scavenge Step, that bird will remain in front of its player for the whole game
- The “food actions” on the bottom of the card can be used any number of times throughout the game

### Food Actions:

- Bird cards will have 1-2 “food actions” on them allowing you to use food to gain or steal eggs
- During your turn, you may only use one “food action”, even if the bird has two options
- Food cards must be used in their entirety to pay for these actions (there is no food “change”)
  - Eg. I have a “food action” that costs 8 food to steal an egg, but I have 2 5-food cards. I must use both of those food cards to do that “food action”.
- Used food cards are put into the Discard Pile

### Food Cards:

- Food remains in front of its player until after the Final Round of the Deployment Step
- A food card is worth as much food as it says on the bottom of the card when being used for “food actions”
- Food is immediately discarded after its use in a “food action”

2 food

### Spoiled Food Cards:

- “Spoiled Food” cards are able to be used upon any opponent’s “food action” during the Deployment Step
- If a “Spoiled Food” card is played, the “food action” does not happen, but the food does get discarded
- Once a “Spoiled Food” card is played, it is then discarded
- “Spoiled Food” will also be discarded with all food cards after the Final Round of the Deployment Step

**SPOILED  
FOOD**

## Parts

- 4 bird nests
- 65 eggs
- Cards
  - 4 starter birds
  - 6 special birds
  - 30 food cards
    - 2-food cards (7)
    - 5-food cards (8)
    - 8-food cards (10)
    - 10-food cards (5)
  - 4 action cards ("Spoiled Food")
